

YOUR ROLE AS VIBE TEAM #2

You are the imagination igniters and the hosts of our "choose your own adventure" rotation! This space is all about relaxed fun, featuring the popcorn bar, giant yard games, the dot mural, and video games. Your primary goal is to manage the flow, supplies, and logistics of these stations. By keeping the environment running smoothly, you create a space where Grade Leaders can sit down, eat a snack, and have meaningful conversations with their kids.

KEY RESPONSIBILITIES

- **Set the Scene;** Make your specific space inviting before the kids even walk in. Have the popcorn ready, the controllers on, and the art supplies organized. A smooth start means more time for kids to connect.
- **Guide, Don't Dictate;** You are there to facilitate creativity. Give clear, concise instructions for activities like the mural or bracelets, then step back and encourage their personal flourish.
- **Maintain the Flow;** Keep things stocked and clean. Have paper towels ready by the snack bar, manage the line for the video games so everyone gets a turn, and troubleshoot disconnected controllers or spilled popcorn with a patient smile.

TIPS FOR HOSPITALITY + FUN:

- **The VIP Concierge Service;** Instead of just pointing to the popcorn bar, actively host it! Make eye contact and ask them about their night while you hand them a bag. "Welcome to the best room in the building! How was the Action Zone?"
- **The "Tell Me About It" Rule;** When managing the art mural or bracelet station, use your hospitality to make them feel seen. Ask specific questions to validate their creativity; "Tell me about the colors you picked for that bracelet!" or "Whoa, that addition to the mural is awesome, how did you think of that?"
- **Jump in as Player Two;** If you see a kid playing a video game or tossing a bean bag by themselves, pick up a controller and join them. You aren't just a chaperone or a room monitor: you get to be an active participant in their fun.
